Prof. Mumtaz Ahmed  
Chairman RMWU

## Chairmen's Message

Dear Colleagues,

It is our great honor and pleasure to invite you all to the Regional Meeting & Workshop on Urolithiasis (RMWU) jointly organized by the Pakistan Association of Urological Surgeons (PAUS) Rawalpindi / Islamabad Chapter & Experts in Stone Disease (ESD) in Islamabad, Pakistan from September 30th to October 2nd 2016.

This conference is first of its kind to be held in Pakistan. It is devoted to Urolithiasis which has a high prevalence rate in our country. It constitutes almost 50% of the urological work load with many patients presenting with neglected large/staghorn calculi and renal failure.

Thanks to the support of many urological and stone societies (SIU, IAU, ESD, EAU-EULIS, PAUS, U-merge, Society of Surgeons of Pakistan, Pakistan Nephrology Society and many more) we have been able to put together an exciting program, which will address all aspects of stone diseases, from molecule to staghorn stone, from crystal to rock, from diet to surgery, from prevention to treatment.

There will be a multitude of keynote lectures and debates by well renowned national and international faculty, and live commented uncut video demonstrations of the latest surgical techniques on URS, PCNL & RIRS.

The conference is being held in Islamabad which has been declared the 2nd most beautiful capital of the world. Moreover, nearby Rawalpindi, the twin city of Islamabad, is located on the bay of the river Swan and has its own historical attraction.

We warm-heartedly extend our welcome to you and hope that you will join us in Islamabad for not just a stimulating conference, but also a friendly gathering amongst friends and simply a good time.

Dr. Noor Buchholz  
Chairman ESD

## Abstract submission Topics (ePosters)

Epidemiology, Diagnosis of urolithiasis, Medical treatment and prophylaxis of urolithiasis, SWL, URS, PCNL, Pediatric urolithiasis, Bladder stones, Stents, miscellaneous

**ABSTRACT  
SUBMISSION
