

Course Title : Urology Resident's Course 2016, Singapore in conjunction with the 14<sup>th</sup> UAA Congress 2016, co-organized with American Urological Association  
Submitted by : Takamasa Horiuchi  
Department/ Institution : The university of Tokyo hospital, department of urology  
Country : Japan  
Date : 18<sup>th</sup> July 2016 (Monday) to 21<sup>st</sup> July 2016 (Thursday)

---

**A) Background:** I have been training in Urological department for 3 years and about 4 months, so far. However, I have never taken part in international urological meetings.

**B) Course Objectives:** I can study the basic knowledge of urology in English. We can learn and share the ideas from other countries.

**C) Lessons Learnt:** On the 1<sup>st</sup> day, we studied almost all the areas of urology through presentations by ourselves and doctors from Asian countries including Singapore. On the 2<sup>nd</sup> day, we studied advanced knowledge by the doctors from the United States. The other days, we could participate in the meetings and we knew the up-to-date information from them in English.

**D) Benefits:** we could share and exchange the ideas and it was a great chance to make friends from other countries.

**E) Recommendations:** we can learn other ways of thinking on urological problems. It will be great to spend time with doctors from other countries.

**F) If you are asked to rate this course over 10, what is your rating? \_\_\_\_8\_\_\_\_**
